

3-Hour Intensive Creating Accurate and Authentic Project Schedules

PDU's – 3

Ways of Working – 3.0

Course Description: This 3-hour class explores and compares traditional, agile, and hybrid scheduling techniques. Each method discusses tips associated with creating a schedule that promotes both a level of control and high performance for a project.

Course Objectives:

Objective 1: Creating project schedules using traditional project methodology

Objective 2: Using agile frameworks for scheduling a project through iterations

Objective 3: Using both methodologies to create hybrid scheduling approaches
